Global Institute of Management (GIOM) & Institute of Management Studies – PG Center (IMPG) are affiliated to Osmania University and approved by AICTE, New Delhi. Both institutions are offering MBA program catering to the needs of the industry and fulfilling the promising career to the young Managers.

The most important factor that differentiates training at GIOM & IMPG from other B-Schools or Management Institutions is the focus on Processes and exposure to practicality what industries expected. Students first learn about the key processes of their chosen specialisation in liaison with industrial stimulations of experiences, the activities that are a part of those processes. At GIOM & IMPG work based training is a part of all our programs.

GIOM & IMPG imparts advanced learning and research orientation with professional and entrepreneurial skills to adapt and excel in fiercely competitive and changing environment.

About the Seminar :

Entrepreneurship is one of the important aspects of the economy. The concept of entrepreneurship differs from place to place and person to person. It is therefore, imperative to have basic understanding of the concept of entrepreneurship.

Developing Entrepreneurship Skill is being seen as the key driver and despite the challenging economic times and high rate of unemployment across the country, especially amongst the fresh graduates, there is a glimmer of hope which is born from the rise of the entrepreneurial spirit – which promotes capital formation, creates large scale employment opportunities, provides significant social benefits by creating social value, structures and institutions, sets the ground for innovations and most importantly promotes regional development and reduce concentration of economic power improving the standard of living and ultimately facilitating overall development of the country.

Against this backdrop, this seminar aims at providing a platform to share the ideas and research results & obtain feedback on this emerging and contemporary topic in order to explore the best practices and alternatives for the Entrepreneurship Skill development among individuals and groups, which in turn leads to the national development.
